SkyLight

Compact Portable LED with HMI Type Output

NEW

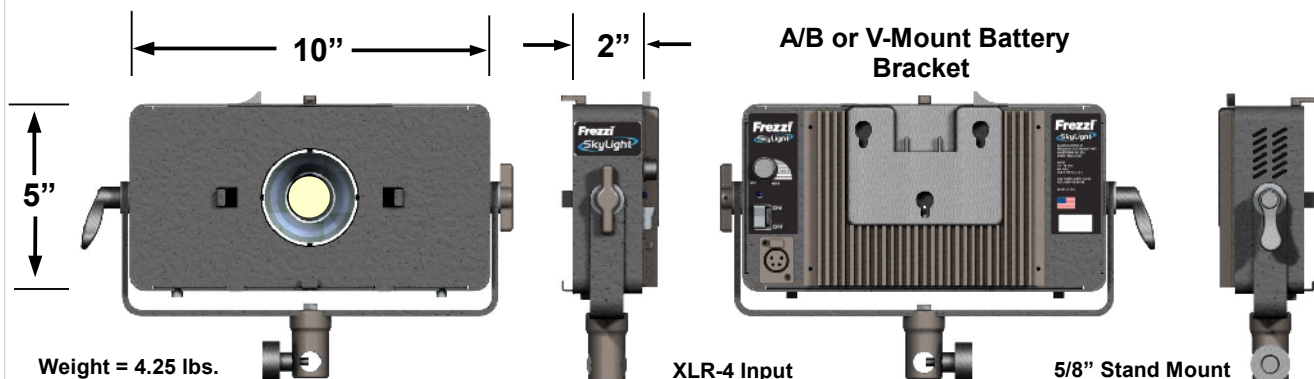

High Intensity Daylight-Usable LED that Doesn't Fade in the Sun

Frezzi redefined high-output portable LED lighting with the revolutionary **HyLight**, now our advanced **SkyLight** delivers an impressive amount of daylight-balanced light suitable for indoor/outdoor news gathering and field production. It's a highly portable LED fixture powered by standard broadcast batteries, DC or AC power. Delivers equivalent light to a 650 Watt tungsten or 125W HMI source while drawing only 75W of power. Fully dimmable with selectable beam angles using quick change reflector technology.

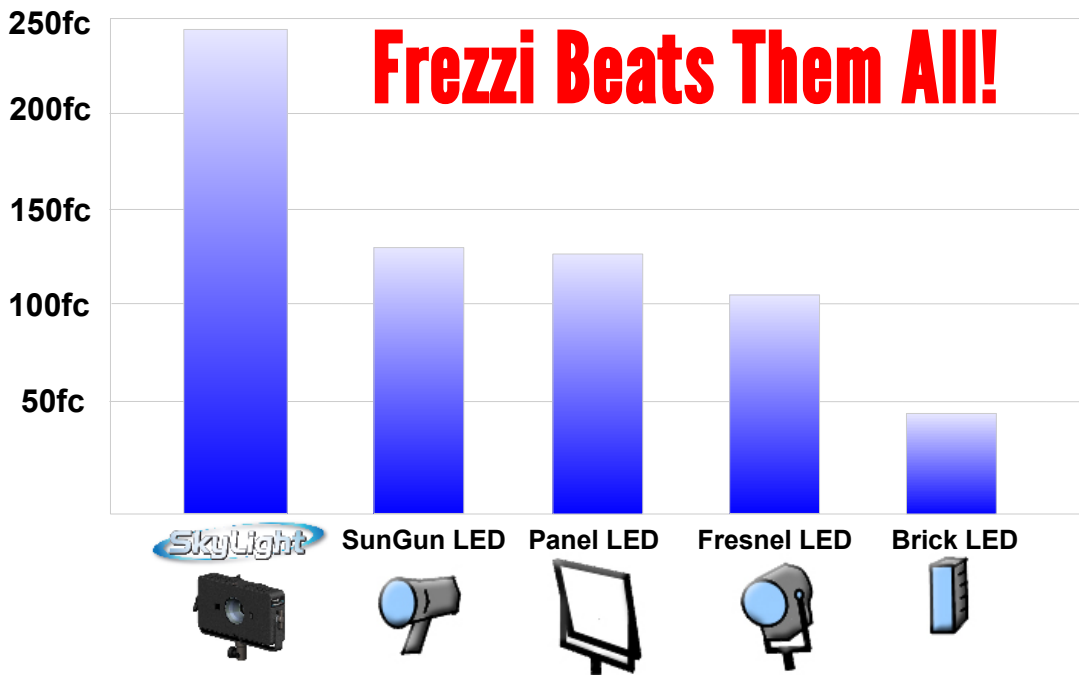

- **Ultra High Output** – 240 fc at 5' in flood, 640 fc at 5' in spot – Highest output in power class
- **Long Run Time** – Over 1 Hour with Frezzi FLB-100 battery
- **Small & Compact** – Portable for “Run & Gun” in complete travel-friendly 2 head light kit
- **High Quality White Light** – High CRI single source 5600K daylight light without pixilation or color fringing
- **True Color Dimming** – 100% to 0 dimming without color shift
- **Wide Range Input** – 12 to 36 VDC, using A/B or V-Mnt. battery, 30V belts/power packs or AC power supply
- **Weatherproof** – Useable in all weather conditions
- **Frezzi Durability** – All aluminum design built to Frezzi “industry work horse” standard
- **Silent Operation** – No fan with reliable passive cooling
- **Complete Accessories** – Barn doors, filters and light modifiers available
