

User's Manual PBC2 (Item 93923) Dual Channel Simultaneous Charger for PB65 Battery

Features

PBC2 is a 2-channel charger for Frezzi PB65 Battery and Sony BP-U30/60 batteries. It can charge two batteries simultaneously. Using the DC OUT connector and optional PBC2 Cable, another PBC2 base can be connected to charge 4 batteries simultaneously. It features light weight design, portability and universal worldwide input power.

Operation

1. Connect the PBC2 Power Supply to the PBC2 Charger Base via DC IN connector.
2. Insert batteries into Charger Base. The LED lights will turn on to indicate a charge state.
3. When the battery reaches a capacity up to 80%, the LED light turns orange.
4. When fully charged, the LED light will turn green.
5. Optional Configuration: Connect another PBC2 Charger Base via DC OUT connector and optional PBC2 Cable to charge 4 batteries simultaneously.

Caution

1. Do not open the charger or touch any components inside. Do not short contacts.
2. INDOOR USE ONLY! Use the charger indoor and keep it in a cool and dry place.
3. Keep the electrodes of the battery and charger clean and clear for a proper and safe operation.
4. Do not cover the vent holes.

Specifications

Adapter Input:	AC 100~240V 50/60Hz	
Output:	DC 19V/4A	
Charger Output:	DC 16.8V 1A (2-CH)	
Power Consumption:	Max 40W	
Dimension:	PBC2 Charge Base	5.34 x 5.12 x 1.57" (136x130x40mm)
	PBC2 Power Supply	4.5 x 2.5 x 1.375" (114x64x35mm)
Weight:	PBC2 Charge Base	0.88 lbs (0.4kg)
	PBC2 Power Supply	0.63 lbs (0.3kg)
