

## Professional Camera Light With Self-Contained Quick-Swap Battery Pack

The EyLight is the world's first professional camera light with an internal quick-swap rechargeable battery that delivers sustainable power to tungsten and LED lamps in a compact "all-in-one design".

Built on the industry standard Frezzi Mini-Fill's form factor, it's ideal for handheld cameras that have no way to power a professional light. Finally, get the professional quality light you need all without cables.

## Rugged All-Weather

### Quick swap high energy rechargeable battery

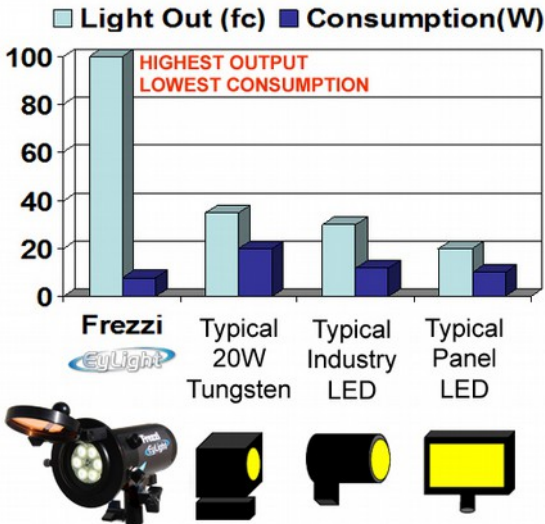

Cable Free Operation

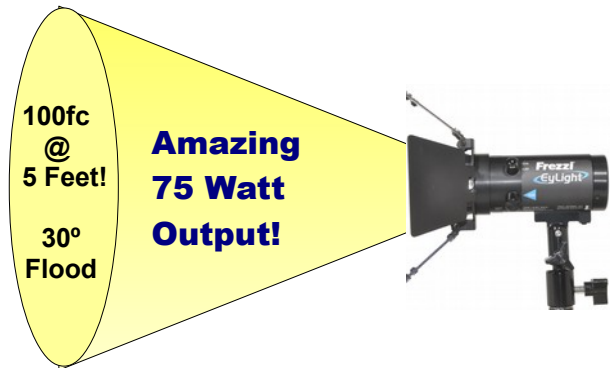

### Ideal lighting solution for ALL format cameras

## Outperforms All Others

## 4 Hour Run Time

The output is equal to a 75 Watt lamp while only drawing only 8 Watts

## GREEN battery technology outperforms AA battery LEDs saving money and the environment

Sustainable ECO Friendly Battery Pack

AA batteries are costly and environmentally bad

Used by ABC, NBC, CBS News, Telemundo, Univision, Raycom Group and many more...

## Features

- Plug-In self-contained battery, no cord or cables required
- Rechargeable Quick-Swap Battery Pack with LONG 3.5 Hour Run Time
- Accepts LED 3000K/5000K or Tungsten lamps
- Dimmer control and independent ON/OFF Switch
- Future proof – lamp swap gets you the latest enhancements as they are available
- Save hundred per year on “AA” batteries compared with other LED lights
- Complete set of accessories including Dichroics Filters, Barndoors, Softboxes
- Safe money and reuse your existing Frezzi Mini-Fill Accessories
- All aluminum, ruggedized, weatherproof design
- Works all cameras, ENG, Handheld cameras and DSLR
- Single Shadow with uniform and smooth light distribution
- Power Tap Operation with adapter cable
- Works on AC with FLC-1 Charger AND ELBC EyLight bypass connector
- Made in USA - 2 year warranty

**“Perfect for today's  
Multimedia Journalist using  
Handheld Camcorder”**

**Better Lighting = Better Video**
